

## EXAMPLES OF CLIN-STAR DISTINGUISHED PROFESSOR ACTIVITIES BY SPECIALTY SOCIETIES

### May 2024: American Thoracic Society with [Dr. Kenneth Covinsky](#)

- Two lectures (*Integrating Geriatric Principles and Practices into Critical Care and ICU Recovery* and *State of the Science on ICU Delirium*)
- Moderated a session with aging-focused abstracts
- Attended the Aging Interest Group
- Offered 1:1 mentoring

### April 2024: American College of Cardiology with [Dr. Malaz Boustani](#)

- Spoke at the Geriatric Cardiology Section and met with members
- Lecture: "Implementation Science: How to Create and Sustain Innovative Programs to Help Your Older Patients"
- Available for one-on-one conversation or mentorship sessions

## **Collaborating for the Advancement of Interdisciplinary Research in Benign Urology**

With [Dr. George Kuchel](#)

- One of the primary scientific sessions was devoted to aging and moderated by Dr. George Kuchel
- Breakout discussion during networking and interactions session engaged CAIRIBU investigators in identifying strategic research objectives for interdisciplinary research on aging in the genitourinary tract
- A specific category encouraged trainee abstracts related to aging in the lower urinary tract
- Best posters for research in the aging genitourinary tract were identified during the meeting
- Half-day early-stage investigator “pre-meeting” included a presentation on opportunities in aging-related research
- Small group or one-on-one mentoring sessions were offered to trainees and other investigators interested in pursuing research on aging in the genitourinary tract
